

TREASURE HOUSE
(LONDON) CIC

End of Year Feedback Report

July 2014

Introduction

After such a successful academic year at Treasure House, we felt it important to collect and share some formal feedback from our students about their time at the school.

We gave all 11 students a feedback form and asked for their honest thoughts about what we do at Treasure House, and how being at the school has influenced them as individuals.

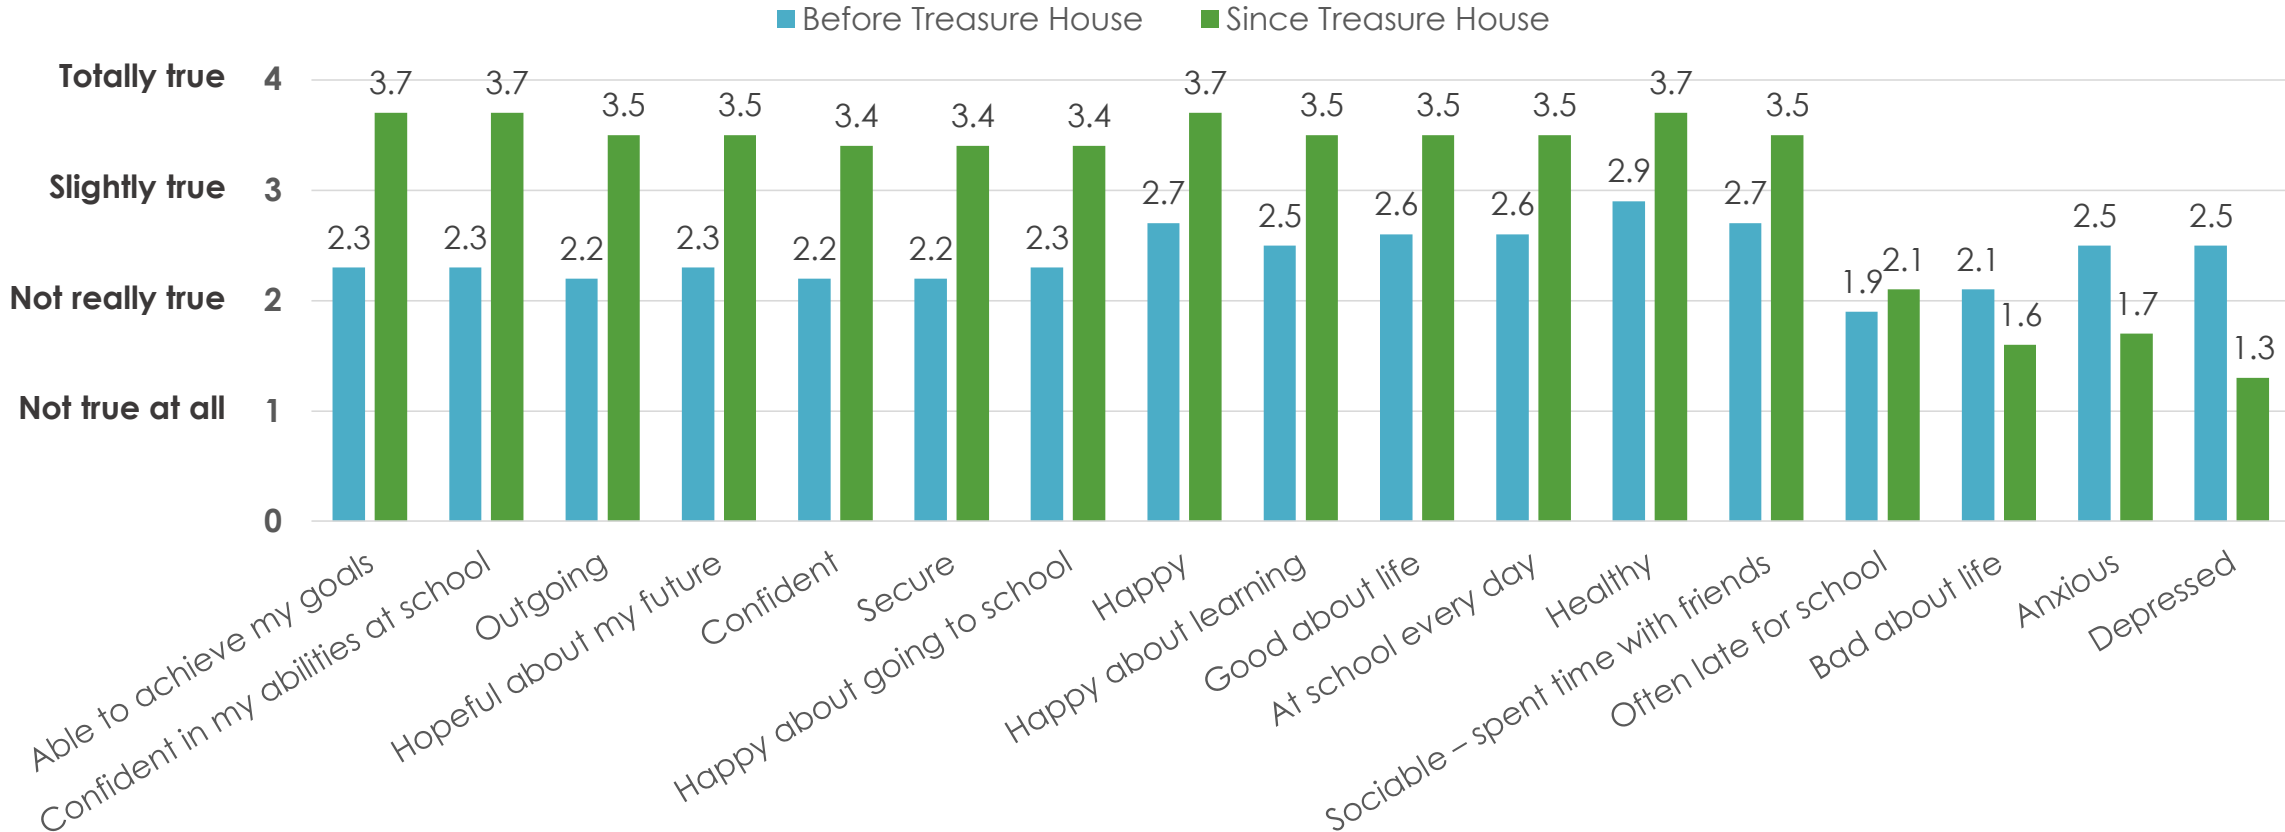

As part of the questionnaire we also asked students to complete an anonymised form to tell us what types of personal experiences they'd had before coming to us. This was a very searching element of the questionnaire so some students may have been reluctant to be completely honest. However, it does give some idea about some of the issues that our pupil intake will be facing.

We intend to record this information regularly and will share it on a termly or annual basis.
