

TREASURE HOUSE
(LONDON) CIC

End of Year Feedback Report

July 2017

Introduction

Every year we ask our students, those leaving us to move on to exciting new prospects, and those continuing on with us into next term, to complete feedback forms to let us know what they think of Treasure House.

We gave all of our students a feedback form and asked for their honest thoughts about what we do at Treasure House, and how being at the school has influenced them as individuals.

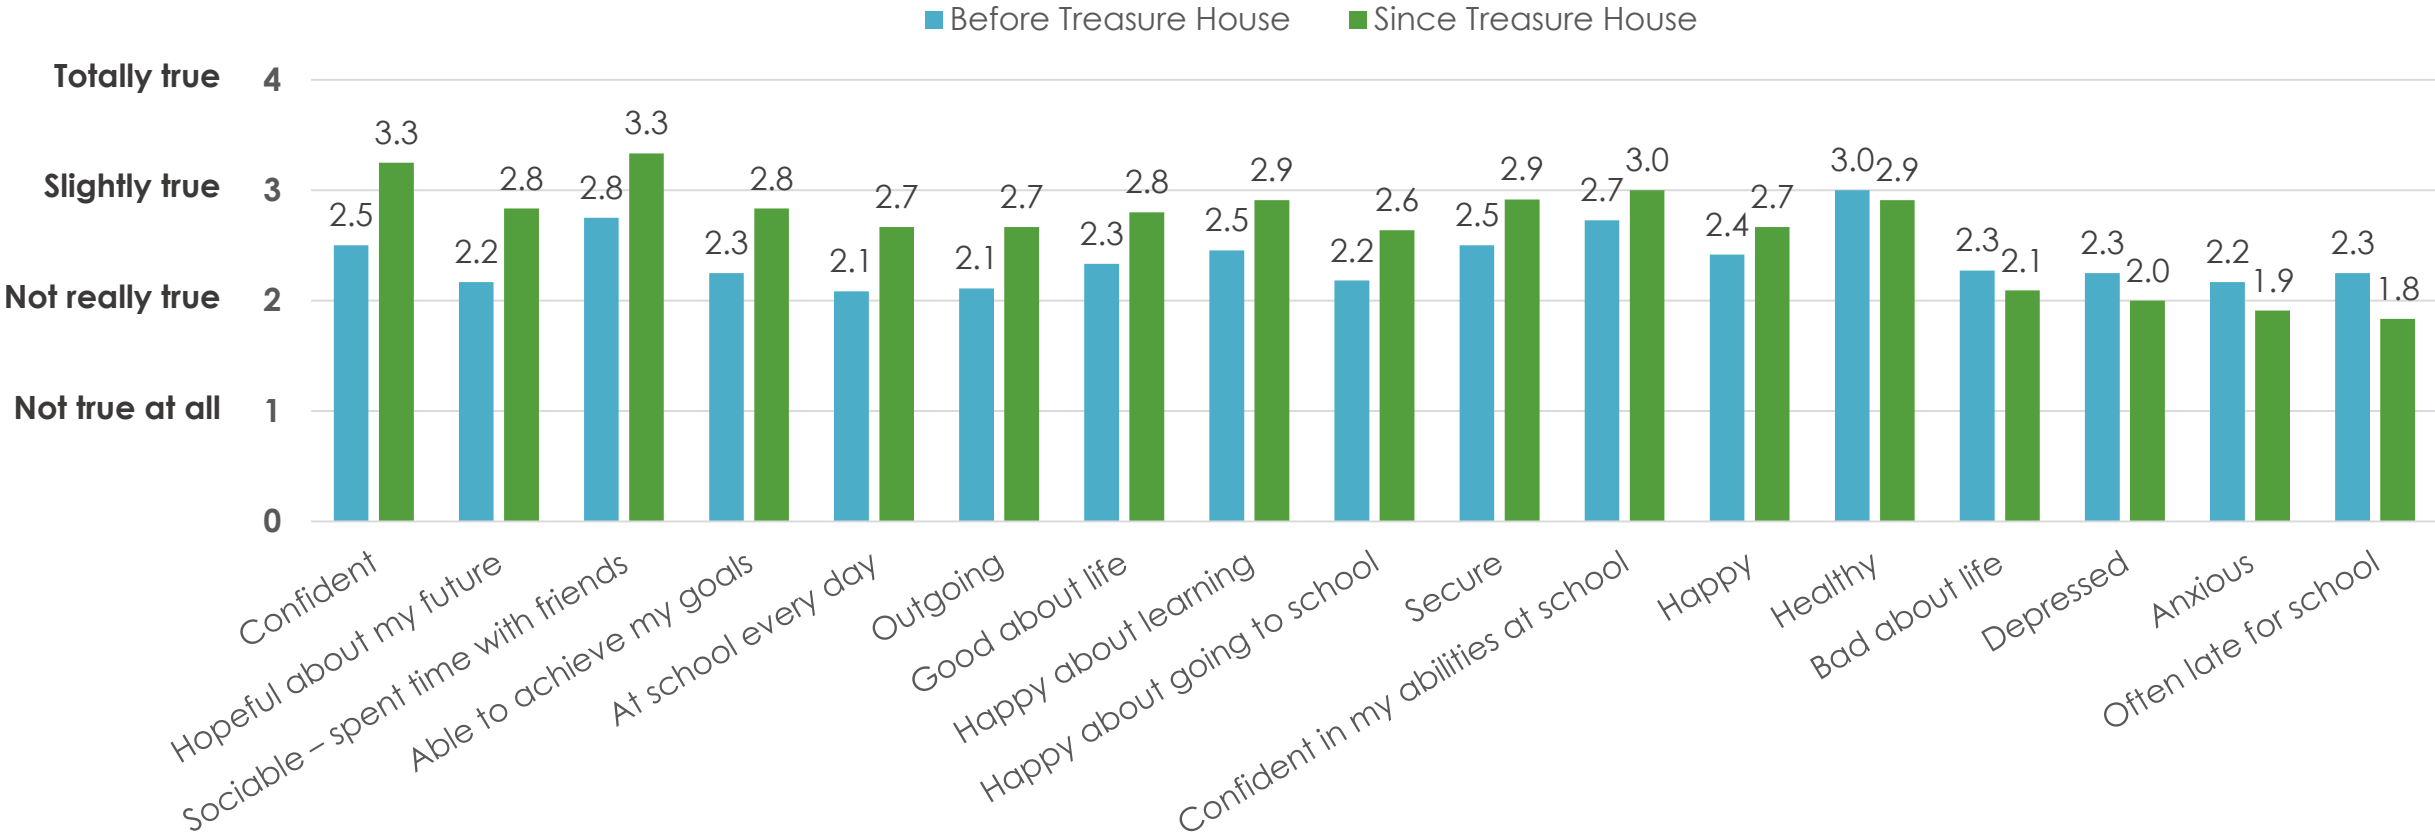

As part of the questionnaire we ask students to complete an anonymised form to tell us what types of personal experiences they'd had before coming to us. This was a very searching element of the questionnaire so some students may have been reluctant to be completely honest. However, it does give some idea about some of the issues that our pupil intake will be facing.

We intend to record this information regularly and will share it on annual basis.
